
CONTINUUM OF CARE

The staff at Serenity Grove understands that the recovery process doesn't happen overnight. It comes with time and a willingness to practice a new way of life. We are with you every step of the way from the initial medically supervised detoxification to an eventual return to everyday life. We provide the necessary tools & structure to support not just living in recovery, but living well. Our commitment to every client is lifelong.

We offer:

- ❖ Residential Addiction Treatment
- ❖ Partial Hospitalization
- ❖ Medically Managed Ambulatory Detox
- ❖ Specialized Programs for Healthcare Professionals
- ❖ Day & Evening Intensive Outpatient Programs
- ❖ Employer Programs
- ❖ Aftercare/Continuing Care
- ❖ Family Care
- ❖ Individual & Group Counseling

OUR TEAM

Our team is here to provide an exemplary treatment experience. The seasoned and capable staff employs the latest evidenced-based methods delivered with vast experience, unmatched empathy, & attention to detail second-to-none, providing one of the nation's premier treatment and recovery experiences. Founder, Jay Veal, states, "It's not just the clinical side that creates success, and we have a great regimen; it's everything from the thread count of the sheets to great food & relaxing leisure activities. We make sure to provide a great overall experience." For a complete list of all our professional staff please visit our website.

A FOCUS ON THE FAMILY

Addiction is a disease that stresses the family to the breaking point, impacting the stability of the home. Addiction can totally disrupt family life, causing harmful effects that can last a lifetime. Family care is available as part of our program. Members of addict families often become slaves to the addiction themselves, in a condition called co-dependency. In short, co-dependency is an unconscious addiction to another person's abnormal behavior – and it is very common. We teach families to cope using a philosophy of “I didn't cause it, I can't control it, I can't cure it.” With a new mindset and the Community Reinforcement & Family Training (CRAFT) model of family care, we can help family members improve the quality of their lives, without alienating the addict.

WHY SERENITY GROVE? HERE ARE 3 GREAT REASONS:

There are many factors to consider when selecting a treatment program. We've assembled a seasoned staff, trained in the latest evidenced-based treatment modalities. Additionally, our serene and discreet location at amenity-rich Lake Oconee provides the ultimate in value and convenience, about an hour drive from the international airport in Atlanta.

LAKE OCONEE: AMENITIES AND DISCRETION

Located a mere hour from the nation's busiest airport, Lake Oconee remains one of the nation's best kept secrets. From the spa-luxury Ritz Carlton Lodge, and water sports to the five championship golf courses, Lake Oconee offers all the amenities of a destination resort, & unparalleled discretion. Lake Oconee's temperate climate attracts the nation's discerning travelers year round.

Schedules can be busy. We understand & flex with you!

Getting help makes your life & obligations less stressful.

A CARE PLAN UNIQUE TO EACH CLIENT

Our path to recovery is unique to each client. In the past, addiction care was more of a “one-size fits all” approach. While many clinics continue to utilize this antiquated approach to addiction care, we have studied decades of research and modern, evidenced-based methods. Integrating the best of all methods, we realize that each individual is unique and the care plan should be as well.

No two clients are alike. We tailor a plan unique to you.

Our care plans integrate the best of all methods.

THE LATEST IN EVIDENCE-BASED CARE

Evidence-based care separates theory from documented results. From motivational interviewing to cognitive behavioral therapy, our team is trained in a variety of modalities that create an environment for change. In addition to individual and group counseling, we provide an intense and comprehensive education for the client and family that delves into every aspect of addiction.

Evidence-based care is based on clinical data & results.

A modern treatment regimen treats all aspects of addiction.
